

IMBAL STOCK

Series IMBAL V-600

EVOLUTION AUTOMATIC FORMING MACHINE

Series IMBAL V-600

Machine Description

Frame and carter Structure in electro-welded iron, treatment anti-rust, Gray enamel;
Gray casing finish
Horizontal Warehouse, positioned above the slide guides
Safety protections Plexiglas inspection carter provided of safety switches
Die-cut dimensions:
Min 320x420 mm / Max 1000x1220 mm
PLC Model Siemens
Function control panel Siemens touch-screen model
Operation Mechanical, electric and pneumatic
Compressed air consumption 23.54 NI/box at 6 Atm

Optional

Adjustable conformer system
Automatic warehouse adjustment system
Automatic glue sprayers (guns) adjustment system
Box evacuation tape

Technical Data

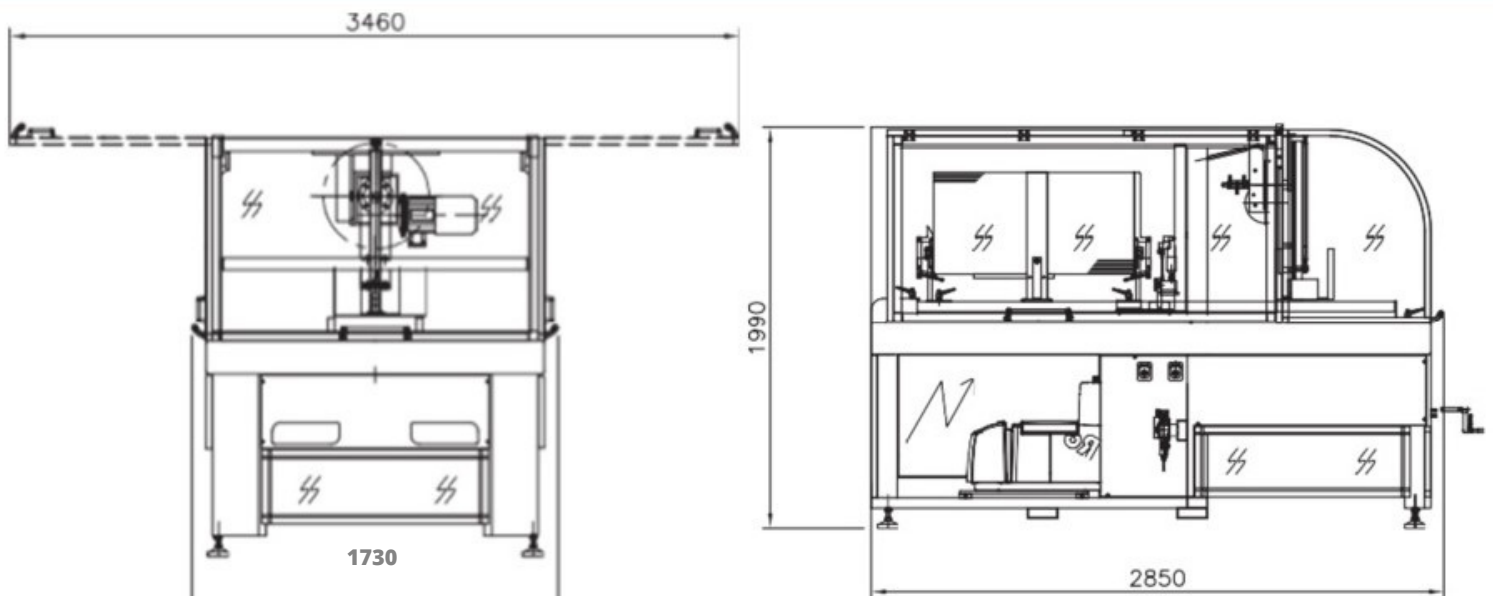

Performance
Speed PPM 45 - 90

Product Dimension
Min 200x300x60 mm / Max 600x600x250 mm

Electric Data
Power 7 Kw
Voltage 400V 3ph

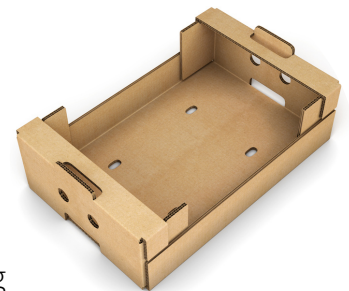

Machine Dimension
Length 2850 mm
Height 1990 mm
Width 1730 mm

Weight
1100kg
